

**Please see the following Update:**

Sussex County Courthouse will be closed today. Emergent applications will be handled in Morris.

In Morris, the only members of the public who will be allowed in the building are people who need to report to drug court or probation. There is a bin inside the lobby of the A&R Building for customers to drop off their emergent filings along with a sign saying they will be contacted by the court. The sign also advises the person to leave a phone number and e-mail address.

A staff member will be checking the bin at least once every hour. Once we receive and process the application, we will figure out how the matter will be handled ie. on the papers, virtually or through Teams and reach out to the parties.

The sign advises people filing regular applications to do so by mail.

A similar process in Sussex will be implemented when the building reopens.

Thank you so much for being understanding of the chaos that is going on right now.

---

The MCBA will continue to monitor and share information as it is received.
