

## NJSBA County Bar Legislative Chairs

County Bar Legislative Chairs are designated by each county bar association to promote coordination and cooperation between the New Jersey State Bar Association and county bar associations, and to serve as an important resource on the local and county level in building grassroots support for NJSBA legislative initiatives.

The County Bar Legislative Chair is the county bar representative to receive information on legislative issues, and may help develop county bar association policy on legislation. Each County Bar Legislative Chair is invited to attend a yearly training orientation on legislation and will work with county bar presidents, executive directors and NJSBA county trustees to advance NJSBA's advocacy agenda.
