

Statement of New Jersey State Bar Association President Domenick Carmagnola

The NJSBA has spent significant time and resources working to increase representation of diverse attorneys in the organization's leadership. We are proud of the significant progress we have made over the past 10 years, and that is reflected in the diversity of our Board of Trustees. For Mr. Saadeh to attempt to undo and seek to remove the trustees who represent diverse segments of our membership is unconscionable. We view the claims as frivolous and baseless and will defend against them accordingly.
